TATTVA

P A G

Voda, vatra, zemlja, zrak i prostor:
5 tattva elementa spajaju se upravo ovdje.
Zakoračite u naš svijet:
nimalo uobičajen, a opet tako iznenađujuće poznat.

A gathering place where all
5 tattva elements:
earth, water, fire, air and space - meet.
Step into our world, eons away from the
ordinary & yet surprisingly familiar.

OUR STORY | Naša PRIča

Sve je počelo s trokutom. Paškim trokutom. Otok Pag. Poznat po svom golom, lunarnom krajoliku i moćnim vjetrovima, taj otok nalik na pustinju dom je misterioznog Paškog trokuta, trokutastog pečata koji je neka nepoznata sila utisnula u kameno tlo koja je ujedno i alkemijski simbol za pet tattvi, pet elementa prirode: zemlje, vode, vatre, zraka i etera.

Slavlje prirode, njezinih enigmatskih putova i pet tattvi koji se skrivaju u nama i oko nas, Tattva Pag nalazi se tamo gdje se moćni Velebit suočava s providnim Jadranskim morem. Tamo gdje se sastaju sveti elementi: zemlje, vode, vatre, zraka i etera, gdje se događa alkemija, gdje se stvara sav život.

Ono što teče kroz tebe, teče i kroz mene, ovdje, gdje planine susreću more. Zakoračite u svijet Tattva Pag, beskrajno udaljen od običnog, a opet tako iznenađujuće poznat.

It all began with a triangle. Pag Triangle. Island of Pag. Known for its barren, lunar landscapes and potent winds, this desert like isle is home to the mysterious Pag Triangle, a triangle shaped mark pressed into the rocky ground by an unknown force.

This mysterious land formation of secret origin invites seekers for exploration, echoing the alchemy symbol for nature's elements. A celebration of nature, its enigmatic ways and the five elements:

earth, water, fire, air and space that hide within and around us, Tattva Pag sits where the mighty Velebit mountain faces the translucent Adriatic Sea.

It's where the sacred elements converge and where alchemy happens, making all life possible. What flows in you flows in me, here where the mountains meet the sea. Step into the world of Tattva Pag, eons away from the ordinary & yet surprisingly familiar.
